[PDF] **Cryptography with DNA binary strands**
A Leier, C Richter, W Banzhaf ... - ..., 2000 - ls11-www.informatik.uni-dortmund ...
... technique allowing a graphical message decryption. The message strand was encrypted by **mixing**
it with ... As a result the key **sequence** could not be used as a distinctive feature for the readout ... 3).
Instead the pool of **dummy** strands used for **encryption** was used as decryption key ...

A dynamic **mix** method for wireless ad hoc networks
S Jiang, NH Vaidya... - Conference, 2001 MILCOM ..., 2002 - ieeexplore.ieee.org
... From, which is address of the mix node ¯ To, which is address of the destination node ¯ **Sequence**,
which is the **encryption** of Sequence field in Mix Request with Ã£¯ Source, which is the **encryption**
of address of the source node E with Ã£¯ Key, which is **encryption** of ...

Untraceable electronic mail, return addresses, and digital pseudonyms
DL Chaum - Communications of the ACM, 1981 - portal.acm.org
... A new kind of **mix** will be presented here that allows a **sequence** of mixes to be selected
for each message. ... This yields a key R, which the **mix** uses to **encrypt** each of the I blocks
of the item (using either public key or conventional cryptography). ...

Timing attacks in low-latency **mix** systems
BN Levine, MK Reiter, C Wang... - Financial Cryptography, 2004 - Springer
... The path PI consists of a **sequence** of k mixes that starts with MI 1 and ends with MI h . Although
in ... This is common among low-latency **mix** sys- tems, where when a path PI is first established,
every **mix** server on PI is given a symmetric **encryption** key that it shares with I, and ...
